zanotta:

Heritage

Dal 1954 Zanotta trasforma l'ambiente domestico con coraggio, arricchendolo di bellezza e sperimentazione, perché gli spazi più importanti sono quelli che abitiamo. La ricerca continua di Zanotta si traduce in creazioni che riempiono le nostre case di icone, ponendo sempre al centro le esigenze e le emozioni delle persone.

Zanotta è stata la prima a realizzare una poltrona senza struttura, a saldare l'acciaio al cristallo, a proporre un divano completamente sfoderabile: tutte intuizioni che hanno sempre accompagnato un'evoluzione degli stili di vita, del comfort, del benessere e della socialità.

Hanno lavorato per noi i più grandi maestri, da Achille Castiglioni a Enzo Mari, con i quali abbiamo condiviso lo spirito, ma siamo stati capaci di riconoscere anche il valore delle innovazioni del passato: nel nostro catalogo brillano gli arredi del design radicale italiano e le creazioni di Carlo Mollino. Non è un caso se oltre 300 pezzi firmati Zanotta sono presenti in 56 musei nel mondo e se 59 prodotti Zanotta sono stati premiati, di cui 5 con il Compasso d'Oro.

Zanotta has been boldly transforming the home environment since 1954, enriching its beauty through daring experimentation, recognising that the spaces we inhabit are among the most significant. The continuous research conducted by Zanotta leads to creations that grace our homes with iconic pieces, always prioritizing the needs and emotions of individuals.

Zanotta pioneered several innovations in furniture design, such as the production of armchairs without structures, the fusion of steel and plate glass, and the introduction of sofas with fully removable covers. These innovations have coincided with evolving lifestyles, enhancing comfort, well-being and sociability.

Renowned masters, from Achille Castiglioni to Enzo Mari, have collaborated with us, sharing their vision. We have also acknowledged and embraced the value of past innovations, evident in our catalogue featuring: furniture from Italian radical design and the visionary creations of Carlo Mollino.

It is not mere chance that over 300 pieces realized by Zanotta are displayed in 56 museums worldwide, while 59 Zanotta products have received prestigious awards, including 5 Compasso d'Oro.

La filiera produttiva di Zanotta è completamente radicata in Italia, poichè Il Made in Italy rappresenta per noi un valore imprescindibile. Nel nostro vasto catalogo, le tradizioni artigianali più autentiche si fondono armoniosamente con le tecnologie più innovative, dando vita a una progettualità sorprendente in cui il lavoro manuale si coniuga con la produzione industriale. Utilizziamo una vasta gamma di materiali e tecnologie, dal legno all'acciaio, dal marmo alla pelle, senza tralasciare l'alluminio, il cristallo e il poliuretano rigenerato.

La nostra attenzione all'ambiente è profonda e costante, spingendoci a progettare divani a basso impatto ambientale come Za:Za e Za:Za Max e a reinterpretare alcune delle nostre iconiche creazioni in chiave sostenibile.

Ogni singolo dettaglio dei nostri arredi è curato con passione e dedizione, incarnando la sofisticata naturalezza di chi valorizza il contributo dei migliori progettisti e artigiani.

The entirety of Zanotta's supply chain is rooted in Italy, as the pursuit of excellence embodied by Made in Italy is an indispensable value for us. Within our extensive catalogue, traditional craftsmanship seamlessly merges with cutting-edge innovation to foster a fresh approach to design, where manual artistry harmonises with industrial methods. Our utilization of an array of materials and technologies is diverse: from wood to steel, marble and leather, as well as aluminium, plate glass and regenerated polyurethane. Furthermore, our commitment to environmental stewardship propels us to conceive low-impact sofas like Za:Za and Za:Za Max and to reimagine some of our iconic pieces through a more sustainable lens.

Every detail of our collection meticulously crafted with passion and dedication, infusing our products with the refined naturalness that characterises items shaped by the collaboration with top-tier designers and the skilled artisans.

Italian Craftsmanship

Radical and pioneering design

La forza di Zanotta risiede nel suo costante essere protagonista indiscusso attraverso le epoche del design. I nostri arredi hanno saputo interpretare e plasmare rivoluzioni culturali e sociali, lasciando un'impronta forte e autorevole, spesso caratterizzata da un tocco ironico e giocoso.

Icone intramontabili come la poltrona Sacco hanno introdotto un nuovo modo di sedersi, contribuendo a consolidare l'idea che dietro ogni arredo si celano pensiero e una visione della società; la serie Quaderna ha trasformato le audaci sperimentazioni del movimento radicale di Superstudio in prodotti domestici; insieme a figure come Alessandro Mendini, Andrea Branzi ed Ettore Sottsass Jr. abbiamo dato vita al movimento Postmoderno.

Oggi, Zanotta collabora con designer che sanno interpretare al meglio le tendenze contemporanee, rinnovando il patto speciale che ci lega ai progettisti più audaci, spingendoci costantemente a spostare i confini del nuovo.

Zanotta's strength has always been its adeptness at navigating the various epochs of design while maintaining its position as the undisputed protagonist. Our furnishings have not only interpreted but also influenced cultural and revolutions, imprinting them with a commanding and authoritative presence, often imbued with an iconic and playful spirit.

Icons like the Sacco armchair have revolutionized seating, contributing to the notion that behind every piece of furniture lies a profound thought process and a reflection of our society; the Quaderna series has seamlessly translated avant-garde experiments of Superstudio into everyday household items; and alongside luminaries such as Alessandro Mendini, Andrea Branzi and Ettore Sottsass Jr., we have championed the Postmodern design movement.

In today's landscape, Zanotta collaborates with designers who adeptly capture the essence of contemporary trends, renewing the special bond that connects us to the most daring design minds and propelling us to push the boundaries of innovation even further.
